

Stockholm 18 - 19 October

Swedish LabDays 2017

Sweden's new trade fair for laboratory technology

Meet us in both no. 79

In our booth:

- Have a look at our CO2 incubator from NuAire
- Space saving storage of samples from Micronic
- Small instruments for every lab
- Test our FastPrep from MP Biomedicals – the best machine for extracting DNA/RNA and proteins from any sample type – even tough tissue
- Get information on the new regulations on PPE gloves (Nitrile)
- Have a talk about how to take best care of you pipettes and get information about our new service facility in Täby

We will be hosting two seminars

Wednesday, October 18

14.00 – 14.25 "Regulatory changes for gloves and what it means for your hands"
Nick Gardner, Shield Scientific

Thursday, October 19

13.30 – 13.55 Pipette and Balance Calibration in the Regulated Laboratory
Steve Ellis, Sartorius UK Ltd

Most welcome

Charlotte Otéma, Lisa Tibbelin & Peter Simon

Register in advance – this is easy to do, just use the link on our webpage www.nordicbiolabs.se

Bring your puzzle-piece to the exhibition –
maybe it is you going off with a friend for a day at the spa ...
