

Supplier Policy

Nordic Biolabs AB is a distributor of products and services for transfusion medicine, microbiology, biotechnology, radiological and nuclear detection and other laboratory work activities related to healthcare, research, military defense and industry in the Nordic countries.

The choice of supplier is based on Nordic Biolab's business idea;

Nordic Biolabs will, through highly competent employees and a well balanced product portfolio offer our customers a unique partner and through our choice of suppliers and highly sophisticated products facilitate and accelerate the technological development within our market. Nordic Biolabs is well established as a supplier of products and services for healthcare, research and research industrial laboratories in the Nordic region.

In addition to selecting specific products offered for the markets we target, we have high demands on quality and performance as well as a competitive price. Furthermore, the products must be manufactured in a sustainable manner and in line with applicable laws and regulations, the requirements of relevant standards, our environmental policy and set objectives.

Nordic Biolabs shall only represent manufacturers that act in accordance with;

- *UN General Declaration on Human Rights and the Convention on the Rights of the Child, Chapter 2.*
- *ILO's eight core conventions on forced labor, child labor, discrimination and freedom of association and organizational law (Nos. 29, 87, 98, 100, 105, 111, 138 and 182).*
- *Labor legislation and environmental legislation in each supplier's country*
- *UN Convention on Corruption.*
